Full time

Country:
Czech Republic

Job type:
Software development and IT

We are about 100 developers, architects, and specialists in Denmark, Czech Republic, Germany, Singapore, India, China, and Australia sitting in a wider organization of about 1000 modelers, engineers, and other experts worldwide. We are all driven by a common interest in the water industry.

We are seeking a new colleague for the Frontend Developer position who is proficient in JavaScript to help us build our cloud frontend applications.

What skills and experience are mandatory?

- Proficiency in JavaScript \geq ES6 is necessary
- Thorough knowledge of React and most popular React libraries
- Proficiency in HTML5 and CSS3
- Familiarity with consuming REST APIs in frontend applications
- Familiarity with responsive design
- Familiarity with version control tools, ideally Git
- At least 5 years of frontend development
- Experience with state management, ideally React Context Provider / Redux
- Experience with package management (e.g., npm, yarn)
- Advanced English (level B2)
- Enthusiasm for frontend development

What skills and experience are beneficial?

- Experience with Polymer framework and web components is desirable
- Experience with TypeScript is highly desirable
- Experience with frontend testing, ideally Jest with Karma
- Experience with design and implementation of reusable React components
- Knowledge of JavaScript linting tools, such as ES Lint, JS Lint, JS Hint
- Experience with Material UI library
- Experience with some mapping libraries like Google Map API, OpenLayers, MapBox, Leaflet, deck.gl
- Experience with chart or other data visualization (dygraphs, d3, plotly.js, or other)
- Experience with GraphQL
- Some understanding of build and release pipelines to cloud environment (Azure, AWS, or other)
- Experience with working in a distributed team and in an Agile methodology
- Ability to self-learn new concepts and technologies on the job

What do we offer?

- Job in environment friendly and growing industry
- Benefits like contribution to home office equipment, lunch, and more.
- Working with recent technologies
- Work in smaller groups with personal touch
- Environment where you can learn new things and receive training
- Domain which offers interesting challenges for data visualization, maps, and overall UI design
- 5 weeks of vacation

How to apply?

- Please submit your application including CV via the relevant job posting on DHI's website:
<http://www.dhigroup.com/careers>.
- Deadline for application is 31 May 2024.
- Expected start date is asap.

- For further information please contact Szymon Badura at szba@dhigroup.com.

To apply for this position, you must have the right to work in the Czech Republic without restrictions. We are unable to sponsor applicants for this position.
