

Environmental Consultant

About DHI

DHI is a global and independent company dedicated to working on challenges within the fields of water and environment and sustainability. Within these fields, we provide a wide range of advisory, digital advisory, research and water governance services as well as providing leading edge MIKE technologies and products to the market. At DHI, we are constantly looking for passionate and talented people who are eager to join our team.

By joining DHI, you will not only become part of a dynamic and collaborative global team of experts; you will be empowered to innovate, engage and grow in your area of expertise. DHI is committed to disseminate our knowledge effectively and across our worldwide network of offices.

Ready to make a difference?

We're looking for an **Environmental Consultant** to help shape a cleaner, more sustainable world. Bring your knowledge of environmental regulations, assessments, and sustainability planning to a dynamic team making a tangible impact. Exciting projects, and a purpose-driven mission await.

Responsibilities and challenges

The main responsibilities and challenges in the job are:

- Undertake technical work as an environmental consultant or scientist for environmental monitoring and management, and environmental impact assessments projects
- Support the project manager in managing resources, schedules, sub-contractors, budgets and risks, to meet delivery and financial targets
- As part of a team to support with client liaison and consultations with regulatory agencies and other project stakeholders
- Provide input to strategies and support in the preparation and submission of proposals and tenders for new projects
- Work collaboratively as part of a team and share knowledge with colleagues
- Contribute to the development of innovative and multidisciplinary technical and organizational methods/services

Qualifications and personal skills

We are looking for a new colleague who will join us on our quest in solving the world's water problems and have the following qualifications:

Required:

- Preferably a degree in an environmental engineering or science discipline
- Working experience at least 3-5 years in similar industry
- Preferably recent work experience or other environmental training within Singapore
- Environmental consultancy experience looked upon favourably but not a pre-requisite

Desirable:

- Knowledge and understanding of water quality, environmental sustainability, coastal processes, noise, vibration, air quality and/or marine/terrestrial ecology
- Understanding of construction methods in the built environment
- Good cooperative interpersonal skills, working with a wide range of colleagues of diverse backgrounds and nationalities
- Confidence to work with different external stakeholders (e.g. developers, contractors, government agencies, NGOs, etc)
- Attention to detail with good verbal, analytical and writing skills, professional presentation and communication competencies
- Working knowledge of MS Office suite, including Outlook, Word, Excel, PowerPoint
- Experience with any environmental modelling software would be looked on favourably
- Ability to work well independently, under pressure and demanding deadlines, as part of a team, in a fast-paced and dynamic environment with multiple projects and various stakeholders
- Self-motivated, creative, energetic, willing to learn new skills, and interested in continuous

improvement, through best practices and research

- Ability to work flexibly in response to project needs and deliverables that may occasionally include weekends and public holidays

We offer

To work at DHI means being part of an organisation that is the global leader in solving the world's toughest challenges in water environment. We will offer you:

- A job where the keyword is innovation
- A team of highly motivated colleagues, experts in the digital water space
- Professional and personal development. We empower our people. We ensure that they have the freedom to innovate and grow. We recruit professionals who can unite our technical excellence with our business excellence – and maintain our professional integrity at all times
- A unique chance to work with highly professional and motivated colleagues from all around the world
- Continued career development

Office location

- You will be located in our office in Singapore.

How to apply
